EVENTS MANAGEMENT SYSTEM (EMS) — 8 CORE MODULES

Online Registration
Custom registration forms, delegate categories, early-bird pricing, and automated confirmation emails.

Badge & Accreditation
QR-coded, print-on-demand or digital badges. Role-based access zones and real-time accreditation checks.

Agenda & Scheduling
Session builder, speaker management, room allocation, and live agenda app for attendees.

Payments & Invoicing
Stripe, mobile money, bank transfer. Automated invoicing, receipts, and financial reconciliation reports.

Hybrid / Live Streaming
Embedded streaming links, virtual attendee portal, Q&A and polling integrations for hybrid events.

Analytics & Reports
Real-time attendance dashboards, session popularity, geographic breakdown, and post-event surveys.

GATI Integration
One-click interpreter booking from within the EMS. Auto-schedule interpreters alongside event sessions.

API & Integrations
Zoom, MS Teams, Eventbrite, Salesforce, WhatsApp notifications, and custom REST API endpoints.

GATI — Global Access to Interpretation

GATI is Atine Labs' certified interpreter marketplace embedded directly in the EMS. Freelance interpreters create profiles, publish real-time availability, and indicate language pairs and interpretation modes. Event organisers browse, compare, and book in minutes — with automated scheduling, contract generation, and payment processing all in one workflow.
